## Post-Tattoo Care

### FIRST 24 HOURS (CRITICAL PHASE)

#### Immediately after

1. **Keep the bandage on:** Minimum 2-3 hours. Protects from environment.
2. **Wash carefully:** With warm water and gentle neutral soap.
3. **Dry carefully:** With disposable paper towels (NOT fabric towels).
4. **Apply antibiotic cream:** Thin layer of antibiotic ointment recommended by artist.
5. **Don't cover immediately:** Let skin breathe 15-20 minutes.
6. **Repeat every 2-3 hours:** Wash, dry, cream.

#### What to AVOID the first 24 hours

- ☐ Don't unnecessarily wet the tattoo
- ☐ Don't touch with dirty hands
- ☐ Don't share personal items (towels, etc.)
- ☐ Don't wear very tight clothing over tattoo

- ☐ Don't do intense sports
- ☐ Don't go to pools or beach
- ☐ Don't sleep directly on the tattoo
- ☐ Don't apply ice compresses directly

## **DAYS 2-7 (SCABBING PHASE)**

### **Daily routine**

1. **Wash 2-3 times daily:** Warm water + neutral soap, dry thoroughly.
2. **Apply cream or balm:** Every time after washing.
3. **Keep hydrating constantly:** Skin will start to flake, this is normal.
4. **Avoid scratching:** Even if it itches, DON'T scratch. Use cool compresses if itching is intense.

### **Special care**

- Wear loose clothing over tattoo
- Sleep in position that doesn't rub tattoo
- If you sweat heavily, clean gently
- Don't expose to direct sun
- Keep skin clean but don't over-wash

### **Recommended products**

- **Healing balm:** Tattoo-specific (Bepantol, Sudocrem)
- **Antibiotic cream:** Neosporin or similar
- **Neutral soap:** Suitable for sensitive skin
- **Sunscreen:** SPF 50+ after 2 weeks

## **WEEK 2-4 (DEEP HEALING)**

### **Expected changes**

- Tattoo will look "opaque" temporarily (normal)
- Skin will have mostly flaked
- Color will look paler (will regain shine in weeks)
- May remain slightly swollen

### **Ongoing care**

1. **Keep hydrating:** 1-2 times daily with balm or cream
2. **Sun protection:** Crucial. SPF 50+, apply every 2 hours if outdoors
3. **Avoid prolonged sun:** For 4 weeks minimum
4. **Don't go to pools/beach:** Until week 4
5. **No intense sports:** Until week 3
6. **Don't pressure tattoo while sleeping**

**Warning signs** If you observe any of these symptoms, contact the studio: - ☐ Excessive redness or swelling - ☐ Pus or unusual fluid discharge - ☐ Intense heat in the area - ☐ Red lines radiating from tattoo - ☐ Allergic reaction (intense itching, rash) - ☐ Fever

#### **AFTER 4 WEEKS (FINAL PHASE)**

**Healed tattoo** The tattoo should be completely healed in 4 weeks. If you still see flaking or swelling, continue with care.

#### **Long-term maintenance**

- **Daily hydration:** Apply neutral moisturizing cream
- **Sun protection always:** UV rays fade colors
- **Avoid trauma:** Don't scratch or hit the area
- **Comfortable clothing:** Especially in first 2 weeks
- **Keep skin healthy:** General body hydration

- 

## **Frequently Asked Questions**

### **DOES IT HURT TO GET A TATTOO?**

**Yes, there is pain, but it's tolerable.**

The level varies depending on: - **Body area:** Areas with more bone (ribs, spine) hurt more - **Your pain threshold:** Varies person to person - **Size and complexity:** Larger tattoos = more time = accumulated pain - **Tattoo artist:** Technique and experience matter

**Pain comparison by area (scale 1-10):** - Outer arm: 4-5 - Forearm: 4-5 - Outer thigh: 4-5 - Ribs: 8-9 (MOST PAINFUL) - Spine: 8-9 (MOST PAINFUL) - Chest: 6-7 - Calf: 5-6 - Foot: 7-8

**Recommendations:** - Bring music or podcasts for distraction - Breathe deeply during intense sessions - Eat something before (but not too much) - Sleep well the night before - Tell artist if pain becomes unbearable

### **HOW LONG DOES IT TAKE TO HEAL?**

**External healing:** 2-3 weeks **Complete healing:** 4-6 weeks **Final stabilization:** 3-4 months

During this time, color may look pale. This is normal. Once healing completes, color will regain brilliance.

### **CAN I GET THE TATTOO WET?**

**First 24 hours:** Avoid unnecessary wetting. Yes to quick washing, no to soaking.

**First 2 weeks:** Quick showers are okay. Avoid: - Long baths - Pools - Beaches - Hot tubs

**After 2 weeks:** You can wet normally, but protect with sunscreen if there's sun.

### **WHAT IF I REGRET IT?**

Black Ink Studio offers options:

1. **Cover-up:** We design new tattoo covering the old one (€200-€600)
2. **Partial removal:** If tattoo is small (€150-€300)
3. **Modification:** We alter existing design (€100-€400)

**Professional laser removers:** We don't operate lasers, but recommend associated clinics.

### **CAN I GET TATTOOED DURING PREGNANCY?**

**We don't recommend tattoos during pregnancy** because: - Potential infection risk (though low with proper protocols) - Body changes, tattoo may distort - Better to wait post-pregnancy (after nursing if applicable)

**After pregnancy:** Recommend waiting 3-4 months post-delivery and 6 months if breastfeeding.

### **DO TATTOOS AFFECT BLOOD DONATIONS?**

In many countries, **you can donate blood**, but: - Wait 12 months after tattoo (varies by country) - If done in certified studio like Black Ink, usually no restriction - Check with local blood bank

In Spain and EU: Most authorities allow donation after professional tattoo with 4-12 week wait.

### **WHEN DO I NEED A TOUCH-UP?**

Depends on style: - **Simple black ink:** 7-10 years - **Oldschool/vibrant colors:** 10-15 years - **Watercolor/gradients:** 3-5 years - **Realism:** 3-5 years

Touch-ups keep tattoo fresh and prevent fading.

## **CAN I BE IN THE SUN AFTER GETTING TATTOOED?**

**First 4 weeks:** Avoid direct sun exposure. UV rays slow healing.

**After 4 weeks:** Always use SPF 50+ sunscreen. UV rays permanently fade tattoos.

## **WHAT IF I HAVE AN ALLERGIC REACTION?**

**Symptoms:** - Intense and persistent itching - Rash or hives around area - Abnormal swelling

**Actions:** 1. Contact Black Ink Studio immediately 2. Don't apply products without consulting 3. See dermatologist if severe 4. Take antihistamine if necessary

Allergic reactions to pigments are rare (less than 1%) with quality certified pigments.

## **CAN I EXERCISE?**

- **First 3-5 days:** Avoid intense exercise (increases sweating and swelling)
  - **First week:** Light exercise is fine
  - **After 1 week:** Normal exercise, avoid tight clothing rubbing tattoo
- 

## **Tips and Recommendations**

### **BEFORE COMING TO THE STUDIO**

#### **1. Prepare mentally**

- Visualize the tattoo
- Remember why you want it
- Accept it's permanent (or semi-permanent with right design)
- Prepare for long session (may last several hours)

#### **2. Sleep well the night before**

- Get adequate rest (7-8 hours)
- You'll arrive more relaxed and with better pain tolerance

#### **3. Eat nutritious food before**

- Eat good breakfast/lunch 1-2 hours before
- Sugar and protein will give you energy

- Arrive hydrated

#### **4. Don't consume stimulants**

- ☐ DON'T drink alcohol 24 hours before (thins blood)
- ☐ DON'T take aspirin (anticoagulant)
- ☐ DON'T smoke excessively (restricts blood vessels)
- ☐ OKAY: Coffee in normal amounts (but not excessive)

#### **5. Dress comfortably**

- Loose clothing that doesn't press tattoo area
- Avoid tight pants/shirts
- Comfortable shoes

#### **6. Bring clear references**

- Images of style you want
- Photos of specific elements
- Detailed descriptions
- Clearer = better result

#### **7. Arrive punctually**

- 15 minutes early
- Allows artist to prepare everything
- Relax your mind before starting

### **DURING THE SESSION**

#### **1. Communicate**

- Inform about sensitivities
- Tell if you need to stop
- Ask about technique
- Artist appreciates feedback

#### **2. Stay calm**

- Deep, slow breathing
- Focus on relaxing muscles
- Avoid tensing the area
- Tension increases pain

### **3. Distract your mind**

- Bring headphones with music/podcasts
- Focus on something different
- Talk with artist if it helps
- Some clients bring laptop to watch shows

### **4. Stay hydrated**

- Drink water constantly
- Replenish fluids from sweating
- Helps your body process better

### **5. Take breaks if necessary**

- For long sessions (4+ hours), it's normal to request pause
- Artist will schedule breaks
- Use time to recover

## **AFTER LEAVING THE STUDIO**

### **First hours**

1. **Keep bandage on:** Minimum 2-3 hours
2. **Clean gently:** Warm water + neutral soap
3. **Dry well:** With disposable paper
4. **Apply cream:** Thin layer of balm
5. **Let breathe:** 15-20 minutes without covers

### **Day 1**

- Wash every 2-3 hours
- Apply cream after each wash
- Avoid tight clothing
- Don't sleep directly on tattoo
- Keep away from prolonged water

### **Following weeks**

- Consistent cleaning routine
- Daily hydration
- Sun protection
- Don't scratch even if itchy intensely

## LIFESTYLE AND TATTOOS

### Diet

- **Protein:** Needed for healing. Eat chicken, fish, eggs
- **Vitamin C:** Strengthens collagen. Oranges, strawberries, peppers
- **Water:** Stay hydrated (2+ liters daily)
- **Avoid:** Excessive alcohol, ultra-processed food

### Exercise

- Wait 3-5 days before intense exercise
- Avoid sweat “trapped” on tattoo
- After 1 week, resume normal activities
- Avoid tight clothing rubbing tattoo

### Sleep

- Sleep well (7-8 hours)
- Body heals during sleep
- Sleep in position that doesn’t press tattoo
- Use clean pillows

### Stress

- Reduce stress during healing
- Stress slows healing
- Practice meditation or yoga
- Keep positive mindset

## LONG-TERM CARE

### Keep skin healthy

1. **Hydrate daily:** Neutral cream or lotion
2. **Protect from sun:** SPF 50+ always (especially over tattoo)
3. **Don’t smoke:** Smoke ages skin
4. **Sleep well:** 7-8 hours recharge your skin
5. **Maintain stable weight:** Radical changes distort tattoo

### Touch-ups

- Schedule touch-ups every 5-10 years depending on style
- Keep tattoo bright and defined
- Usually faster (1-2 hours)
- Cost: 50% of original price

## Modifications

- Want to change tattoo: cover-up or modification
- Want to expand: Black Ink can integrate elements
- Share ideas with artist for harmony

## MYTHS ABOUT TATTOOS (DEBUNKED)

□ **“Tattoos completely fade”** □ FALSE: With proper care, they last decades. Occasional touch-up keeps them fresh.

□ **“Tattoos affect employability”** □ PARTIALLY: Depends on industry. Many modern companies accept tattoos. Consider placement.

□ **“All tattoos get infected”** □ FALSE: With hygiene protocols (like Black Ink Studio), infection is rare (<1%).

□ **“Tattoos hurt the same everywhere”** □ FALSE: Hurts more on bone areas, less on fleshy areas.

□ **“Can’t tattoo dark skin”** □ FALSE: You can, but requires special technique. Consult experienced artists.

□ **“Tattoos are permanent forever”** □ FALSE: Laser removers exist. Also modifications and cover-ups.

## FINAL ADVICE

A tattoo is a permanent (or semi-permanent) commitment to art on your body. Take time to: - Choose the right design - Select the right artist - Understand the commitment - Follow care instructions carefully

At **Black Ink Studio**, we’re here to guide you at every step. Your perfect tattoo awaits!
